

## Fitness Bands

The fitness bands are manufactured in seven strengths and are therefore suitable for beginners and professionals. They help to stretch the entire body, build strength and train balance - suitable for fitness programmes of all kinds. The bands are made from fair-trade natural rubber and are therefore very tear-resistant and hard-wearing. Can be used for Pilates, gymnastics, Crossfit and many other exercises. We recommend stronger bands for well-trained people and bands with less tensile strength for children and beginners.
